

phyouth: Event Scholarship Request Form

We never want financial concerns to be the reason students miss any phyouth event intended to help them follow Christ on a deeper level. A limited amount of assistance is normally granted, due in large part to the generous giving of church members, on a partial basis as need is determined. It is expected that each applicant will contribute towards the cost to the extent of their ability. In addition, students receiving a scholarship are encouraged to talk with Jay or Katye about how they can serve within the church, as an action of gratitude for the gift they have been given.

Please complete the following information and return to Jay Clark, along with your event registration. We will process your request in a timely manner and contact you stating the scholarship amount awarded and additional directions.
